EDUCATION

Name of School: Zaporizhzhia Gymnasium No. 70

Receiving a degree: Bachelor

Years attended: 2021 - …

City, State: Zaporizhzhia

SKILLS

- Kotlin
- OOP
- Android components
- Retrofit
- Glide
- Firebase
- SQLite
- Coroutines
- Hilt
- MVVM
- Git
- Room
- Jetpack Library

ADDITIONAL INFORMATION

English: B1

SUMMARY/OBJECTIVE

I have less than a year of experience in the development of Android applications, in particular in the field of messengers. I have a high level of knowledge of the Kotlin language and experience using the Android framework, as well as knowledge of SQLite, Retrofit and Coroutines. My goal is to join a team working on the development of innovative applications to improve people's lives and develop society.

WORK EXPERIENCE

Pet-projects

RecipeApp

- Using Android SDK, Clean Architecture
- The UI of the project and the server part are fully developed.
- Customize the change of the light and dark theme

Application CoolChat

- Using the Android SDK to develop functional chat applications.
- using Firebase to work with the server, link messages, pictures, and store users.
- Using Coroutines to asynchronously perform non-blocking thread operations.

INTERESTS

In my free time, I run a Telegram channel focused on programming, where I share the latest updates on Android development and provide explanations for LeetCode coding challenges.
